

Shore Chapter

New Jersey Association for the Education of Young Children

Dear Shore AEYC Members,

Welcome back to an exciting year with your Shore Association for the Education of Young Children. I hope you had a somewhat relaxing summer and are refreshed for the new school year. The Shore Chapter had a summer board retreat in August where we started planning some great trainings and events we hope you will support. Our kick-off training was held at First Friends with Lori Cordasco, Reading Specialist as our presenter. The topic was "Books across the Curriculum". It was nice to see so many of our members in attendance and I'm hoping to see more of you at our next event.

Your Shore AEYC Board is going through reorganization. What that means is we are looking for some new Advocates for Children. If you want to become active in this great organization please email me at sdeb29@verizon.net Together we can make changes that will impact children, stay abreast of new issues in the child welfare field and have fun working together for the same cause. It only takes one email to let me know you're interested and a few hours of your time. At our summer retreat two new members did just that and I welcome Lauren Badal and Sandy Carasia as Members at Large. I am also thankful for the support of returning Board Members; Patsy Kouten, Treasurer and V.P. of Membership; Joey Mackintosh, V.P. of Programs and Heidi Zaentz, Secretary. Please consider joining us to find out how you can make an impact as an advocate for children!

Another exciting development over the summer was an update to our website thanks to Laura Leech, Webmaster. You can check important communication regarding the Shore AEYC. Log on to www.njaeycshore.org and give us your feedback.

Thanks to all of you for your support and daily commitment in the work that you do!

With Gratefulness,

Susan deBrigard

Shore AEYC President

***NJAEYC Shore Chapter
Director's Group

Presenter: Cindy Terebush Director of Temple Shalom Schools

“Teaching Non-Verbal Communication Skills to Preschoolers”

Do you have typically developing preschool students who just don't seem able to read the non-verbal communication clues from their peers and teachers?

Do you have students who don't seem to express how they feel through non-verbal communication skills?

The ability to express and correctly interpret non-verbal communication plays a major role in the social success of both children and adults. These skills are seldom taught as a formal part of the preschool curriculum.

Learn about all of the different types of non-verbal communication and techniques for teaching them in your classrooms.

Members Free

Non-members \$15.00
